## Chairman's Budget News

On May 14th the United States Supreme Court struck down a federal law that effectively banned commercial sports betting in most states. In a 6 to 3 vote, the court ruled in *Murphy v. NCAA* that the federal government could not use coercion to prevent states from allowing sports betting. With the ruling striking down the 1992 federal law, Pennsylvania is now positioned to allow sports betting in a controlled and methodical manner.

Act 42 of 2017 contained provisions that would allow the Pennsylvania Gaming Control Board (PGCB) to adopt regulations for allowing sports betting in the Commonwealth should the Supreme Court rule in favor of the plaintiffs. Pursuant to Act 42, the PGCB has approved temporary regulations for the implementation of sports wagering. The temporary regulations provide for definitions of the terms associated with sports wagering implementation as well as delineating the petition requirements for slot machine licensees seeking to offer sports wagering. These regulations are the beginning of a series of regulations that the Board will consider in the roll-out of sports wagering.

Finally, in order to further the development of sports wagering regulations, the PGCB announced that it is accepting comments from any interested entity or person relative to items which they believe the PGCB should take into consideration in promulgating temporary regulations on sports wagering. Comments should be submitted by mail or e-mail no later than June 15, 2018.

Sports betting in Pennsylvania will be done in a controlled and responsible manner. By allowing sports betting in Pennsylvania, the Commonwealth will realize an increase in revenues which can be used to fund important priorities like education and caring for those with physical and mental disabilities.
