

Economic Brief

Rep. Stan Saylor, Chairman

January 2022

Chairman's Report

General Fund revenue collections of \$3.59 billion were above estimate by \$376.8 million for the month of January. Year-to-date collections of \$26.15 billion are above estimate by \$1.847 billion.

Every major tax category exceeded estimate for the month including Non-Tax revenue: Total Corporation Taxes by \$20.9 million; Total Consumption Taxes by \$97.0 million; Personal Income Taxes by \$180.1 million; All Other Taxes by \$65.8 million; and Total Non-Tax Revenue by \$15.4 million.

On January 31, 2022, the Independent Fiscal Office (IFO) released its Mid-Year Update for FY2021-22 with a revised revenue estimate of \$45.322 billion, which is \$2.786 billion more than the Official Revenue Estimate. Also included in the report is an initial revenue estimate of \$43.319 billion for FY2022-23.

While FY2021-22 revenues are considerably outperforming estimates, the IFO highlights in its report, that State tax and non-tax revenues are estimated to decline 0.8% in FY2022-23.

December's unemployment report once again shows a slight increase in employment but an even greater exit from the labor force. Pennsylvania's workforce participation rate of 60.8 is the lowest it has been since June of 1987.

The Committee will continue to monitor future risks to the current economic trends which may have a significant impact on future General Fund revenue collections.
